

Long Range Underhammer Rifle

Style:

Billingshurst.

For more than 150 years percussion rifles have been well known for their highest level of workmanship and superior accuracy.

Even today, this sport-shooting tradition requires individual weapons classically modelled as in former times.

**Traditional
craftsman's art
from the
gunsmith's forge:**

Due to their construction,
the

Billingswurst.

system, compared to
side hammer locks

*Persuasive
advantages:*

free-floating barrel fitted
to action by breech bolt,
no interference by the fore stock

fastest ignition by
shortest distance between cap and
powder charge

highly improved scores
due to custom-fitted stocks
an old rule says: "The barrel
shoots, but the stock hits!"

reliable function and
longevity due to few
parts subject to wear

Standard design Long Range rifle:

- .458 barrel Eichelberger made,
progressive twist from 24" to 18", 6 grooves
(optional with false muzzle or false muzzle
for cross patch)
- barrel length 36" (914mm)
