

# Underhammer Rifle

100 meters Whitworth  
and 50 meters Vetterli

Style:

*Billingshurst*

For more than  
150 years  
percussion rifles  
have been well  
known for their  
highest level of  
workmanship  
and superior accuracy.

Even today, this  
sport-shooting tradition  
requires individual  
weapons  
classically modelled  
as in former times.

**Traditional  
craftsman's art  
from the  
gunsmith's forge:**

100 meters  
Whitworth

50 meters  
Vetterli

Worderlader-  
Waffenbau

Bedinski  
in  
Kulmbach

Due to their construction,  
the

*Billingshurst.*

system, compared to  
side hammer locks

*persuasive  
advantages:*

free-floating barrel fitted  
to action by breech bolt,  
no interference by the fore stock

fastest ignition by  
shortest distance between cap and  
powder charge

highly improved scores  
due to custom-fitted stocks  
an old rule says: "The barrel  
shoots, but the stock hits!"

reliable function and  
longevity due to few  
parts subject to wear

Standard design "Whitworth":

- .37 barrel Suhl made, twist 600mm, optional  
caliber .42, twist 500mm with false muzzle for  
cross patch
